

Staychill Chill Trays

User Guide

Applies to GN: 1/1, 1/2, 1/3, 1/4, 1/6 and Round.

Quick Tips

Place Staychill Chill Tray in freezer for at least 8 hours.

The Chill Tray can be stacked vertically or horizontally.

After freezing, the Chill Tray will remain at a temperature below +8 °C for approx 2-3 hours.

INTENDED USE

This product is designed to keep food chilled for serving and display purposes.

GENERAL SAFETY WARNINGS

- Do not expose the tray to direct heat sources, such as stoves, ovens, or open flames.
- Avoid using hot liquids or placing hot objects directly onto the tray.
- Keep out of reach of children to prevent accidents.

USAGE & HANDLING

- Place Staychill Chill Tray in freezer for at least 8 hours.
- The Chill Tray can be stacked vertically or horizontally.
- After freezing, the Chill Tray will remain at a temperature below +8 °C for approximately 2-3 hours.

IMPORTANT INFORMATION

- Chilled food should be kept at or below +8 °C to preserve taste, quality, and prevent bacterial growth.
- Cold food must be chilled in a refrigerator before being placed on the Chill Tray.

SAFETY

- Do not puncture or open the Chill Tray.
- If Chill Tray becomes damaged and the gel substance comes in contact with skin or eyes, rinse immediately with water. If irritation persists, seek medical advice.
- If small amounts of the substance are accidentally ingested, it is generally non-toxic. However, consuming larger quantities may cause discomfort. If any symptoms arise, seek advice from a healthcare professional.

CLEANING AND MAINTENANCE

- Clean Chill Trays with lukewarm water and a damp cloth, avoid abrasive tools or cleaners that may damage the surface finish.
- Do not wash Chill Trays in a dishwasher.
- Ensure the Chill Trays are fully dry before storing to prevent mold or damage.

STORAGE

Chill Trays can be stored vertically or horizontally in a freezer or a dry and cool place.

DISPOSAL

- Dispose of Chill Trays responsibly in accordance with local regulations.
- Do not puncture or attempt to open the packs before disposal.

REACH CERTIFICATE OF CONFORMITY

Article Number: SCSL1 / SCSL2 / SCSL3 / SCSL4 / SCSL6 / SCCLR

Manufacturer: Stayhot AB

Declaration of Conformity

Stayhot AB hereby declare that the “Staychill Chill Tray” complies with the provisions of the REACH regulation (EC) No 1907/2006.

This declaration is based on the information and data verified from the manufacturing chain, ensuring that all components meet the relevant provisions regarding registration, evaluation, authorisation, and restriction of chemicals under the said regulation.

This certificate of conformity is issued under the sole responsibility of Stayhot AB.

All information herein is considered accurate and true as of the date of issuance. The undersigned acts on behalf of and with the approval of the board.

Product Composition and Material Breakdown

Gel Ice Pack Composition

Sodium Carboxymethyl Cellulose (CAS No. 9004-32-4)	98.5%
Sodium Glycolate (CAS No. 2836-32-0, EC No. 220-624)	0.4%
Sodium Chloride (CAS No. 7647-14-5, EC No. 231-598-3)	0.5%
Purified Water (CAS No. 7732-18-5, EC No. 231-791-2)	Balances to 100%

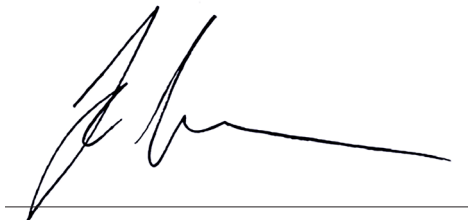

Structural Components

Polyether Polyol* (CAS No. 39362-51-1)
Toluene Diisocyanate*(CAS No. 471-62-5, EC No. 247-722-4)
Polyester Fiber (CAS No. 25038-59-9)

*Used in the synthesis of polyurethane foam

Substances of Very High Concern (SVHCs)

The product does not contain any substances identified as Substances of Very High Concern (SVHCs) at concentrations exceeding 0.1% by weight.
